A Framework for Watershed-Based Trading

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability.

SUMMARY: EPA's Assistant Administrator for Water hereby gives notice of the availability of a Draft Framework for Watershed-Based Trading (EPA 800-R-96-001). This Framework is a companion to the Policy Statement for Effluent Trading which was issued in January 1996. The Policy Statement and Framework are a result of President Clinton's "Reinventing Environmental Regulation" (March, 1995), which listed effluent trading in watersheds as one of the twenty-five

high priority action items. The Framework has been developed to encourage trading and assist in evaluating and designing trading programs. The framework provides a background on trading and its benefits, a series of conditions that are necessary for trading, including those that assure protection of water quality comparable to the protection that would be provided without trading. The framework also includes a template of regulatory, economic, data, technical, scientific, institutional, administrative, accountability and enforcement issues that facilitate identification and evaluation of trading opportunities. Finally, the framework has worksheets/checklists, for five types of trading identified by EPA, to evaluate whether potential trades meet threshold conditions. The audience for the framework includes local and national community groups, members of the regulated and nonregulated community and governmental organizations. EPA is asking for comments on the framework.

DATES: Comments must be submitted on or before September 9, 1996.

ADDRESSES: Comments should be addressed to Comment Clerk, Water Docket MC-4101: Environmental Protection Agency, 401 M Street SW., Washington, DC 20460. Commenters are requested to submit an original and 3 copies of their written comments. Commenters who want receipt of their comments acknowledged should include a self-addressed, stamped envelope. EPA will also accept comments electronically. Comments should be addressed to the following Internet address: ow-docket@epamail.epa.gov. Electronic comments must be submitted on an ASCII file avoiding the use of special characters and any form of encryption. EPA is experimenting with electronic commenting, therefore commenters may want to submit both electronic comments and duplicate paper comments.

FOR COPIES OF THE FRAMEWORK CONTACT: Fax NCEPI at (513) 569-7186; you must specify publication number and title. Copies are also available on disk in WP 6.1 format.
